Dear DA!S:

It is with great embarassment and sense of shame that I sadly admit my inability to come up with the creative energy needed to articulate the following message with the appropriate mix of cleverness, originality and crudeness which would make it worthy of DA!S stationery; however, a great burst of unanticipated greed and unusual opportunity has led me to be working 80+ hour weeks while battling to salvage in the time left over my neglected garden, farmwork and marriage.

Therefore, while admittedly an inexcusable insult to the quality of the Archives, this will simply have to do:

Hi everyone! Sure would love to see you all! How about Labor Day or the weekend before at my place? David & Karen are coming up the weekend of the 24th for, hopefully, a while. Vinnie + Priscilla have indicated Labor Day problematic but could do. If the rest of you can think about it, I'll call around later this week for a concensus.

Have a nice day!!

Cam
